

How to install the V2 drivers on Windows 10

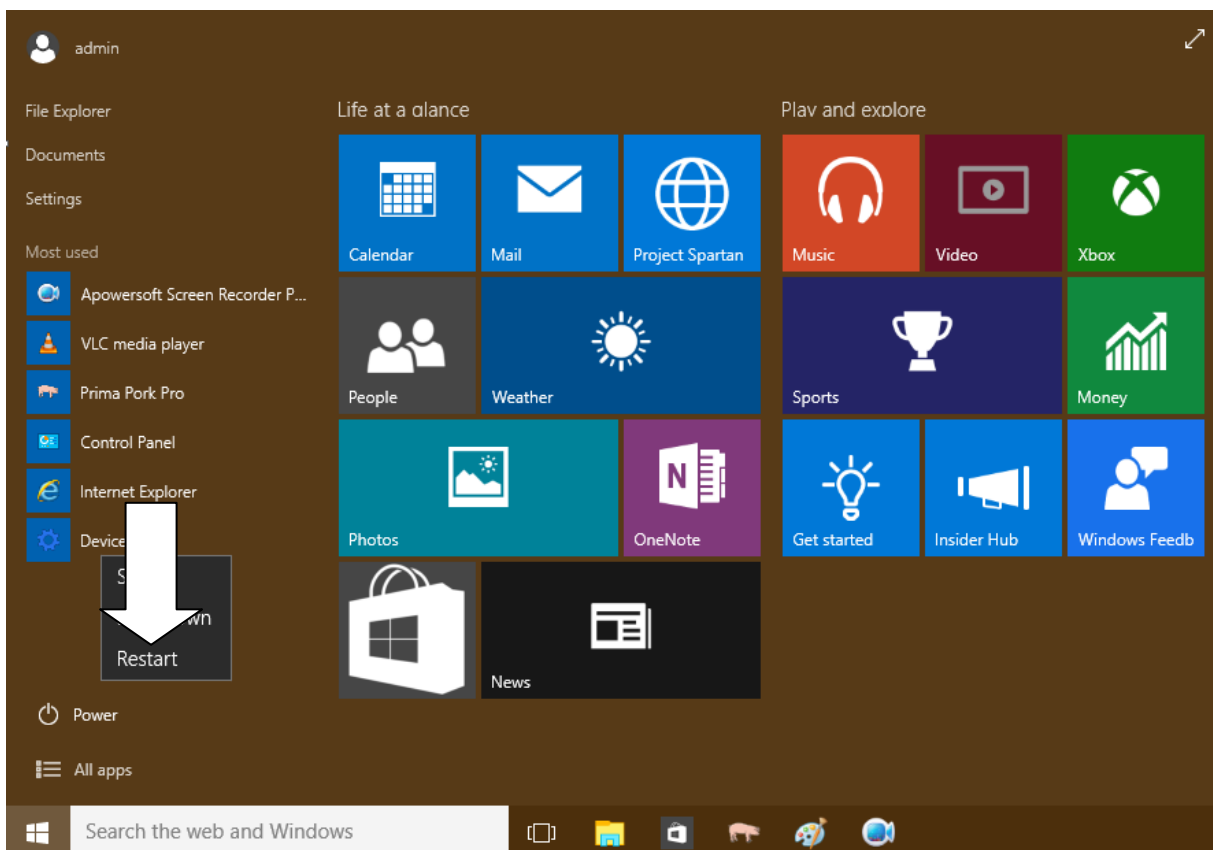

Click start in the lower left corner.

Click on the “Power” button and 3 options will appear.

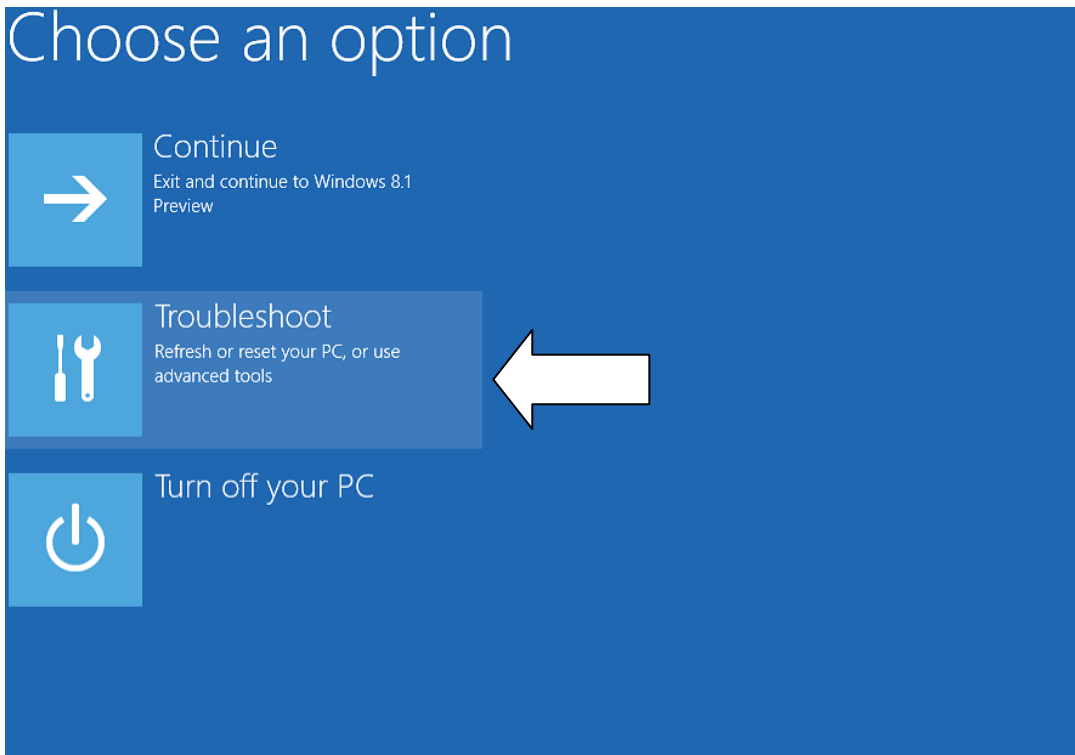

Hold “Shift” and click the “Restart” button.

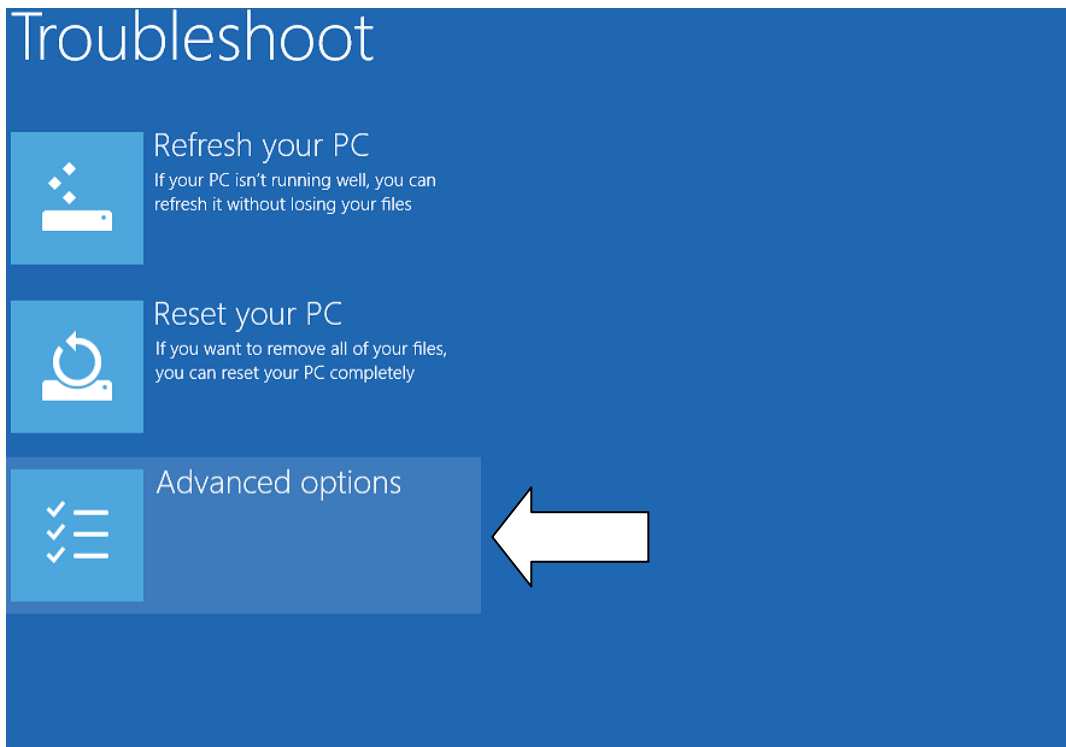

After the restart this screen appears.

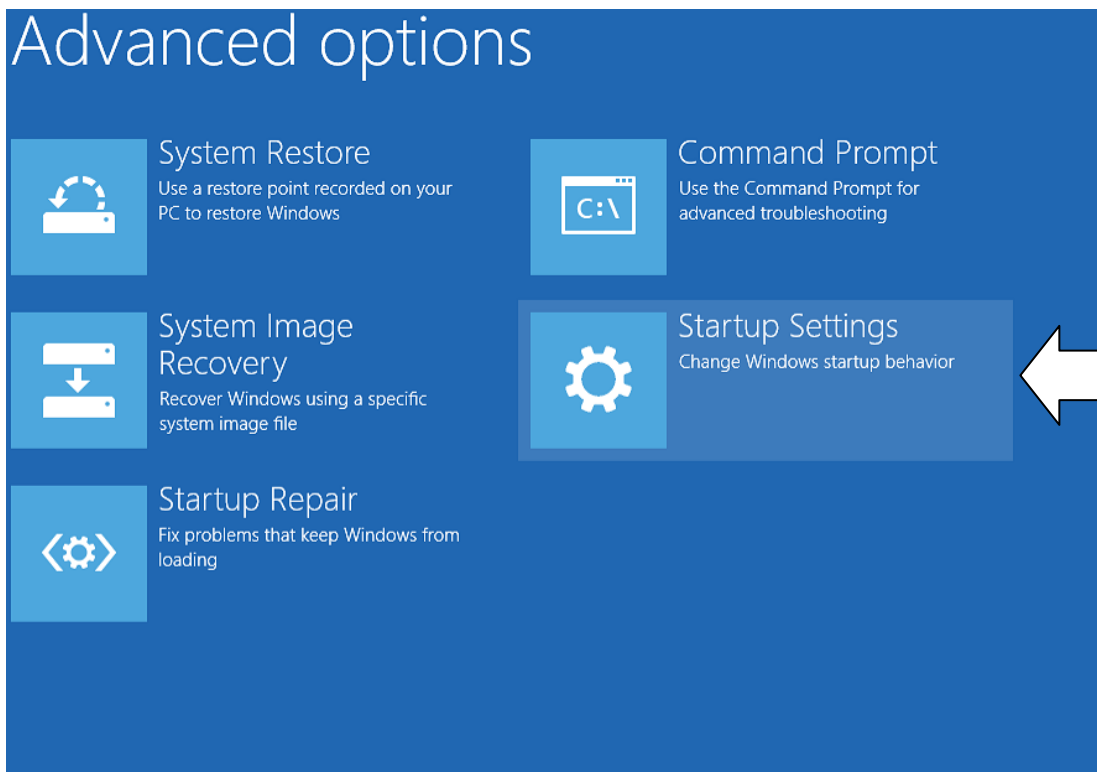

Click "Troubleshoot".

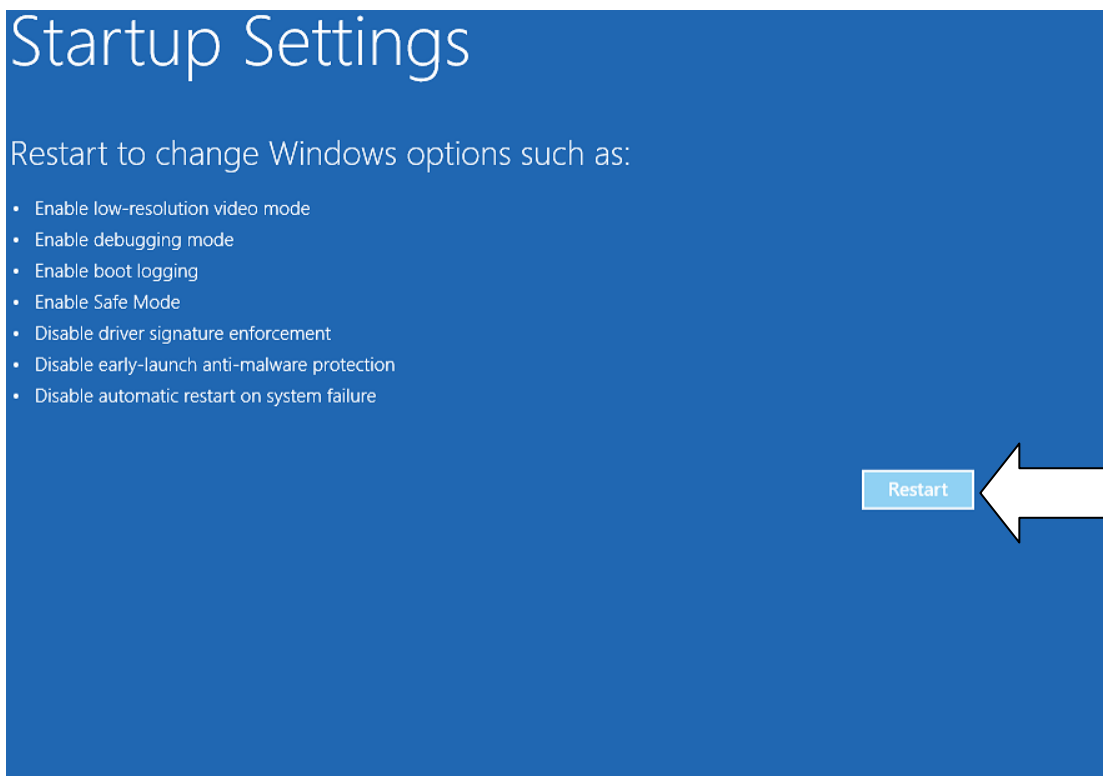

Click "Advanced options".

Click "Startup Settings".

Click "Restart".

Press "F7".

Startup Settings

Press a number to choose from the options below:

Use number keys or functions keys F1-F9.

- 1) Enable debugging
- 2) Enable boot logging
- 3) Enable low-resolution video
- 4) Enable Safe Mode
- 5) Enable Safe Mode with Networking
- 6) Enable Safe Mode with Command Prompt
- 7) Disable driver signature enforcement
- 8) Disable early launch anti-malware protection
- 9) Disable automatic restart after failure
